

MONIKA BHIVARKAR

Senior QA Engineer | Pune, Maharashtra, India | +91 8308775936 |
monika.bhivarkar1996@gmail.com | linkedin.com/in/monika-bhivarkar-864354284

PROFESSIONAL SUMMARY

Senior QA Engineer with 3+ years of experience in **Test Automation, API, UI, Database, and Performance Testing** across AI/LLM, EdTech, Telecommunications, and Creator Economy domains. Strong understanding of **SDLC, STLC, and Agile Scrum**. Proficient in building scalable automation frameworks using **Selenium WebDriver (Java & Python), Robot Framework, and TestNG**. Experienced in testing **AI-driven platforms (LLMs, Google Gemini), microservices, and CI/CD pipelines with continuous testing practices**. Skilled in **BDD concepts, defect lifecycle management, and stakeholder collaboration**, delivering **zero-defect releases** with high quality and efficiency.

KEY SKILLS

SDLC, STLC, Agile Scrum, Test Automation, API Testing, Performance Testing, AI/LLM Testing, Regression Testing
Functional & Non-Functional Testing, CI/CD, GitHub Actions, SQL & Database Validation, Microservices Testing,
BDD (Conceptual), Test Automation Strategy, Defect Management, Stakeholder Communication

TECHNICAL SKILLS

- Languages: Java, Python
- Automation Frameworks: Selenium WebDriver (Java/Python), Robot Framework, TestNG, POM
- API Testing Tools: Postman, Insomnia, Swagger, REST API
- Databases: SQL, PostgreSQL, MongoDB, Oracle
- CI/CD & DevOps: Azure DevOps, Git, Kubernetes, Linux (Basic)
- Tools: JIRA, Azure DevOps, I-Track, VS Code, PyCharm, Eclipse
- Testing Types: Functional and Non-Functional, Retesting, Regression, Smoke, Sanity, SIT, UAT, E2E, Performance, Agile Scrum, SDLC, STLC, BDD (Conceptual), Shift-Left Testing

PROFESSIONAL EXPERIENCE

Senior QA Engineer June 2024 - Present
Skilljourney LLP, Pune

Promoted from QA Engineer to Senior QA Engineer in June 2025

HyrAI - AI Interview Platform | AI / HR Tech **October 2025 - Present**

- Led end-to-end QA across STLC for AI interview platform using **LLMs & Gemini APIs**
- Validated workflows: resume screening, MCQ generation, coding assessments, interview pipelines
- Tested **video analysis, proctoring logic, and violation detection**
- Executed **performance & scalability testing** ensuring optimal API response
- Built Automation Framework Design using **Robot Framework (Python) & Selenium**
- Mentored QA team and handled production issues with Root Cause Analysis

Career Journey - Education Platform | EdTech **June 2024 - Present**

- Built Robot Framework automation (Selenium + Python), improving stability 70% to 90%
- Designed end-to-end testing for UI, API, and DB layers in microservices
- Developed 150+ test cases for full functional and non-functional coverage
- Reduced release cycle by 30% via CI/CD-driven regression (Azure DevOps)
- Contributed to Agile Scrum ceremonies including planning, grooming, and sign-offs

Future Bridge - College Recommendation System | EdTech / Data-Driven **January 2025 - Present**

- Tested rule-based college recommendation system processing CET, NEET, and JEE percentile data against cutoff trends
- Validated data extraction pipelines, prediction logic, and recommendation accuracy across edge-case

data scenarios

- Designed test cases for admission probability workflows covering boundary conditions and negative data paths
- Automated regression testing using Robot Framework; supported client UAT sign-off and requirement validation

Oye Creators Brand-Creator Collaboration Platform | Creator Economy

June 2024 - Present

- Executed comprehensive QA across web, mobile app, and backend APIs for a brand-creator marketplace
- Created detailed test cases from user stories covering both brand and creator personas
- Performed cross-platform, cross-browser testing and thorough pre-release regression cycles
- Validated campaign workflows, creator onboarding, collaboration features, and content lifecycle management
- Performed end-to-end API validation using Postman across third-party services and internal microservices

Test Specialist

February 2022 - June 2023

IBM India Pvt. Ltd., Pune

CADM - Customer Account Data Management (AT&T) / Telecommunications

- Executed manual testing and API testing using Postman for complex telecom billing and legacy gateway systems
- Designed and executed 150+ end-to-end SIT test cases by analyzing SRS document
- Conducted functional, regression, and non-functional testing across integrated middleware and legacy billing systems
- Validated service packages, billing offers, pricing components, and revenue management modules with zero production incidents
- Managed defect lifecycle in I-Track and JIRA; prepared effort estimates, test summary reports, and coverage matrices
- Used Unix/Linux commands for log analysis and backend verification across staging and production environments

KEY ACHIEVEMENTS

- Improved automation test suite stability from 70% to 90% for a large-scale EdTech, AI, Creator Economy platform
- Designed and executed 300+ test cases across IBM and Skilljourney with zero production incidents
- Led QA across multiple projects, ensuring high-quality releases and seamless cross-functional collaboration
- Promoted from QA Engineer to Senior QA Engineer within 12 months based on delivery quality and impact

CERTIFICATIONS

Java Developer Association Certification (JDAC-24) -Core Java, OOP, Collections Framework, Exception Handling

Selenium WebDriver Automation Workshop -Framework Design, Page Object Model (POM), TestNG Integration

EDUCATION

Bachelor of Engineering - Electronics and Telecommunication 2014 - 2018 Sant Gadge Baba Amravati University, Amravati, Maharashtra, India

ADDITIONAL EXPERIENCE

Finance Service Consultant

November 2018 - January 2022

ICICI Prudential Life Insurance, Amravati

- Managed client relationships, financial consultations, documentation, compliance, and policy processing
- Strengthened analytical, communication, and problem-solving skills in a client-facing environment
